PROFILE SUMMARY

Fresh Computer Science graduate driven by curiosity and creativity, with a strong track record of turning ideas into real, meaningful products. Passionate about solving problems that matter and growing through collaboration, innovation, and impact.

EDUCATION

BSc. Computer Science Nov 2021 – May 2025
University of Engineering and Technology Lahore, PK
– CGPA: 3.2/4.0

EXPERIENCE

Freelance Full Stack Developer Apr 2022 – Present
Self Employed — Fiverr Lahore, PK
– Delivered full-stack projects using Django, React, Node.js, PHP and PostgreSQL, achieving 95%+ client satisfaction.
– Built custom desktop applications in C# (WinForms) to streamline business workflows for SMEs.
– Integrated third-party APIs into client platforms, enhancing functionality and reducing development time.

Generative AI Intern July 2023 – Sep 2023
Startup Product (Remote) Canada
– Integrated ChatGPT and Whisper APIs using Node.js scripts to automate content generation and transcription.
– Built a proof-of-concept backend with Node.js, reducing human workload by 70%.
– Contributed to product roadmapping and lean MVP planning using agile methodology.

MEAN Stack Instructor Sep 2023 – Aug 2024
Ustadam Lahore, PK
– Conducted MEAN Stack workshops as part of a 3-month internship program, training over 70 students.
– Mentored interns in building real-world projects across healthcare and education sectors, fostering practical problem-solving skills and achieved 80% project completion rate.

PROJECTS

ApplyLog – Job Application Tracker | *Django, PostgreSQL, HTML, JS*
– Developed a Django-based application to manage and visualize job applications with role tagging.
– Implemented user auth, resume upload, and CRUD operations with PostgreSQL backend.

Askyla – AI-Powered Mental Health Companion | *OpenAI API, RUST, Tailwind CSS, JS*
– Built an AI-driven web application offering emotional support through personalized chat interactions.
– Integrated OpenAI's API to generate empathetic, context-aware responses for users facing mental health challenges.

COMMUNITY EXPERIENCE

Founder & Lead Feb 2023 – Present
Ultimate Tech Crew (UTC)
– Built a 10,000+ member community bridging academia and industry in Lahore.
– Partnered with 50+ companies and hosted 30+ events including tech summits and bootcamps.
